Online Order Number:

### Instructions

If possible, we need at least a 1" x 1" square (or larger) of material so that we can get an exact match. For automobiles, there is usually excess material under the seats. For furniture there may be a manufacture swatch under the cushions. If there is not one, you can turn the furniture over and remove a few staples and cut a piece of the excess around the frame. If you are doing a color change or cannot locate a sample of material, please feel free to send in a paint color swatch.

Please do not tape your sample to the form. Rather, either staple it or use a paper clip to the form or put it in a plastic zip lock bag.

## **Project Description**

### **Automotive Projects**

Year:                      Make:                      Model:

Size of project (i.e. driver seat, console, two seats, etc.)

Type of damage (i.e. worn areas, tears, scratches, etc.)
